

## Acceptance of Flier's Damage Liability at BARC Launches

Sport rocketry is safe, educational, and fun. Sometimes, however, despite our efforts to keep our flying range running safely, accidents do occur during launches. By attending **Bridgeton Area Rocket Club (BARC), NAR Section 775**, rocket launch activities, I agree to hold harmless **BARC**, the **National Association of Rocketry (NAR)**, and the owner of the launch site and their respective individual members, affiliates, approved onsite vendors, Board of Governors/Trustees, licensees and assigns from all claims, demands, liabilities, damages, costs and expenses that I (and/or my minor child) may now or hereafter have against them resulting from my (and/or my minor child's) presence at **BARC** launches. This release applies not only to me but also to my heirs and assigns.

I further agree, and understand, that should my (and/or my minor child's) rocket, glider, or other such article launched at an official **BARC** launch cause any damage (or injury) to property or persons, that I am responsible for that damage (or injury). In making restitution for that damage (or injury) should I decide to initiate a claim using **BARC's NAR** insurance policy, I understand, and accept, the fact that I am responsible for the first \$1,000 of the **NAR** insurance deductible.
